BOATRAX

Boatrax Box - Automatic Captain's Log

The Boatrax system is designed by captains for captains to provide professional vessel management tools for every boater.

The Boatrax Box connects to the NMEA 2000 network to store and transmit comprehensive metrics about the vessel in real time.

By receiving instant notifications for critical events and effortlessly creating detailed reports about the usage of their vessels, boaters and crew members can enjoy peace of mind and more time on the water.

PRODUCT FEATURES

GPS TRACKING & GEOFENCING	ENGINE METRICS & DIAGNOSTICS	BATTERY VOLTAGE MONITORING
FUEL LEVEL & CONSUMPTION	INTRUSION DETECTION	BILGE MONITORING

Technical Specs

Physical Dimensions:
5.75in(14.61cm) x 5.75in(14.61cm) x 1.75in(4.45cm)

Weight:
3 lbs

Operating Voltage:
9-30 VDC

Power Consumption:
1W (normal operation) - 3W (peak)

Power Input:
NMEA 2000 Cable or 2-wire lead to DC source

Internal Battery:
5500mAh Lithium polymer battery

Charge Duration:
up to 48 hours

Mounting:
Bracket or Adhesive

Wireless Connectivity:
Wifi, Bluetooth, 4G-LTE, GPS

Certifications:
FCC, CE, NMEA (pending)

Antennas:
External GPS and 4G-LTE

Optional Features:
Satellite Transponder

Digital Inputs:
3 (3.3VDC)

Digital Outputs:
2 (5VDC)

Temperature Ratings:
-40C - 85C

Sensor Inputs/Outputs:
Motion, Magnetic Switch, Bilge, High Water, AC Power
