

Your slide's fit should look as good as your yacht - seamlessly integrated and beautifully displayed. Provide us with some important information, and we'll deliver a slide with superior form and fit.

top of handrail

A

water line

B

This is important if the boat could come into contact with the slide. Generally, this is not an issue as the angle of the slide will be 45 degrees.

center of handrail

outer edge of rub rail

C

top of handrail

For example: most railings are about 100cm in height.

top of deck surface

Yacht Slide

PHOTO GUIDE & BOAT SPECS

Take a few shots of your yacht so we can better understand how to craft the perfect slide. Then fill out the form below, and we'll manufacture some fun for you and your guests.
